Digital Reading Program

Wushka is a cloud-based digital reading program, accessible from all common browsers and devices. Wushka offers two specialised digital reading libraries: Find out more and request free trial.

Levelled Library

About the Wushka Levelled Library

Our levelled library consists of over 680 fiction and non-fiction readers carefully levelled to support primary school students who are learning to read. The Wushka Levelled Library coloured reading boxes align with all common reading systems and provide coverage from Kindergarten through to Year 6.

Decodable Library

About the Wushka Decodable Library

Our decodable library consists of 348 readers and supporting resources. The readers provide students with text-based context to practise emerging reading skills and build confidence to master the phonics code. Our decodable reading boxes are organised into six Phonics Phases, with fiction and non-fiction for each, and specialty science readers.

Every reader on Wushka is supported by comprehensive student and teacher support materials including:

Comprehension Quiz

Reading Management System

Teachers can manage their own class and set individual student reading profiles for school and reading. Ongoing reading statistics are available at individual student and whole-class level and provide detailed insights into students' level of interaction, comprehension and progression, both at school and at home.

Magnetic Ridged Letters

Magnetic lowercase ridged letters pack of 200. This pack contains 200 letters measuring 2.5 (H) to 3.8 (H) cm. The ridge on the letters allows the children to trace the shape of the letters, which helps with letter formation and letter recognition. Magnetic letters are one of the most commonly found resources in the early childhood and school environment. Teachers will encourage children to play with magnetic letters as they are a perfect tool for practising essential literacy skills. Ages 4+ years

Featuring 26 Lowercase and 26 Uppercase letters engraved into natural coconut fibre, each disc has a unique shape and texture, adding an extra tactile element to early letter recognition activities. Disc size approximately 35mm diameter. Ages 3+ years

TEB1019	\$34.95
---------	---------

These Decodable Readers have been developed to support the progression of letter and sound knowledge. Engaging full colour illustrations and photography complement the text-based context to allow early learners to practise their emerging phonics skills.

What are Decodable Books?

Letters & Sounds is a phonics-based reading programme designed to teach the letter patterns of the English language, with the aim of helping children become fluent readers by the age of 7. The programme follows a systematic progression, where children are introduced to a core set of letters (s, a, t, p, i, n, m) and are encouraged to build words and play with these new sounds.

A decodable reading book is a book that only contains phonetics that a child has already learned. For instance, a child starting out in the earliest stages of reading who has learned the sounds s / a / t / p, would be able to decode words in a book such as at, sat, tap, and pat. Therefore, the decodable book would only contain these words and would not introduce any unfamiliar letters and sounds.

Phonics Flip Books

Our easy-to-use flip books each focus on a specific spelling pattern, including long and short vowel sounds, blends and digraphs, vowel combinations and two-syllable words. Students just flip the pages to create 6 to 8 simple words that share the same sound and build reading and decoding skills as they go. 34 flip books come in a storage box with tabbed dividers. Each book measures 6.9(H) x 15.6cm(L).

Wooden Tactile Numbers & Symbols Set

A set of 29 wooden numbers and symbols, consisting of 2 each of 1-9, four times 0 and one each of \times , $+$, $-$, \div , $<$, $>$ and $=$. Trace the numbers with your fingers to improve number forming and memorise the sequence. Practise with number building and simple equations. The tactile feel make them useful for special educational needs. The positioning of the marking on the bottom right ensures the numbers are shown in the correct position. Each tile measures 5 x 7cm.

Rekenrek

The rekenrek supports the natural development of number sense. Although it looks like a counting frame, it is used in a different way. It is more similar to ten frames, where students learn to count in 2's, 5's and 10's. It consists of 2 rows of 10 beads, each row broken up in 2 sets of 5 beads. Using 5 and 10 as anchors for counting, adding and subtracting is clearly more effective than counting by ones and will teach them to develop addition and subtraction strategies such as doubles, plus or minus one, making tens, and compensation.

EasyRead Time Teacher Classroom Wall Clock

This product is the heart of the EasyRead Time Teaching System. Its clear design and simple 3-step teaching system make it very easy for children to learn to read the time in terms of 'minutes past' and 'minutes to' the hour. Teach your children the 3-step system and they will be able to tell the time as soon as they can confidently recognise numbers - what a great way to start the time elements of the National Curriculum.

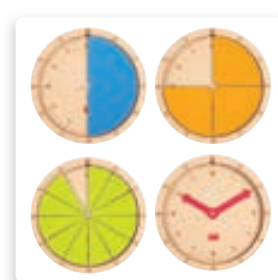

ERT001	Each	\$54.95
ERT001-5	Set of 5	\$249.95
ERT001K	Set of 10	\$499.95

The 3-step teaching system: easy to learn and remember.

- Step 1: Read the number at the end of the long hand.
Step 2: Say "minutes to" if it's pointing to the red side of the clock, or say "minutes past" if it's pointing to the blue side.
Step 3: Read the number at the end of the short hand. Like this: 8...minutes to...2. It's that easy!

NEW

Time Clock with Fraction Pieces

Combine learning to read the time with fractions and see how they are related. A big size wooden time-set for learning how to break down an hour into pieces of 5, 15 and 30 minutes. The clock measures 22.4cm in diameter, set includes 1 wooden time set with 3 levels, 12 wooden 5min pieces, 4 wooden 15min pieces, 2 wooden 30min pieces and 2 wooden arrows.

Time Learning Board - Wall Element

The clock at the centre of the Time Learning Board has hands that can be turned to show any time of day but as you move the second hand the hour hand moves as a normal clock. In this way the time appears correctly. A flip book can be used to confirm the time or to set a challenge. Two sand timers can be flipped on the board to visually show the passage of 1 minute and 3 minutes too. The board measures 46 x 46 x 5.8cm. Available with or without mounting bars to attach the board to a wall.

Time

EXCLUSIVE

Dual Time Clock

This clock can be used as both a wall clock and a table top teaching aid. The analogue and digital time are always synchronised. Both can be adjusted to any time and the other will automatically reset to the same time in 3 seconds. The sliding, removable 'covering plate' can cover either side of the clock, so that children can be asked to write down the covered time. This makes it an ideal resource to teach the concept of digital and analogue time. The digital time can be set to either 12 or 24 hour formats. 2x 'AA' batteries are required. Size: 38.5 x 21 x 4cm

Check the Clues Books – Dr Paul Swan

The Check the Clues A,B,C,D & E books by Dr Paul Swan and David Dunstan offer schools a whole school approach to word problem solving using a co-operative group approach. The books have been designed to improve the students' comprehension of mathematics word problems, and to build mathematical understanding through problem solving and reasoning. The Check the Clues series uses Polya's four step problem solving approach: understand the problem, devise a plan, carry out the plan and look back. Teachers are provided with the Australian Curriculum links, language (vocabulary), notes, answers and references.

QLD Targeting Maths Prep Student
Book Prep

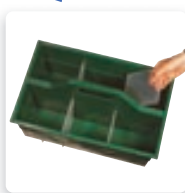

Designed to supplement the early maths teaching program, by providing pictorial mathematics activities. The activities are devised around the five major strands of the Queensland Mathematics Syllabus with links to the Level 1 Outcomes of the Syllabus noted at the bottom of each page. Simple writing tasks have been utilised, such as: matching, circling, colouring and tracing.

Hands On Science Series

The Hands on Science Series of books are a great resource for making science lessons fun, engaging and informative. Each book in the series takes teachers through how to:

- Motivate: setting the scene for the lesson at hand, exploring any background information needed and getting them thinking about the ideas and concepts
- Experience: walks through the best way to structure the experiment
- Explain: discuss what the students have just experienced and why that happens
- Apply: use the knowledge gained from the experiment to a related task

Discovering Science Book Series

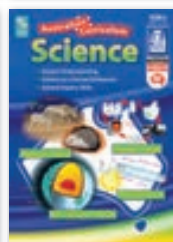

The Discovering Science Teacher book series is fully aligned to the Australian Curriculum and covers each of the three interrelated science strands – Science Understanding, Science as a Human Endeavour and Science Inquiry Skills and also the related sub-strands. It includes subject planners, week-by-week lesson plans and assessment record sheets for the teachers, as well as worksheets, resource and self-evaluation sheets for the students. Each lesson plan includes content descriptions, required resources, skills, a step-by-step activities section, extension activities and assessment ideas.

All About Plants Curriculum Mastery Flip Chart Set - EC

The All About Plant Curriculum Mastery® Flip Chart Set features 10 double-sided, laminated charts with each page covering one of the following topics: Living Things; Non-Living Things; Parts of Plants; What Plants Need; How Plants Grow; Plants We Use; Plants Around Us; Seeds; How Seeds Travel; Fruits & Vegetables

NEWP0021

\$69.95

See-Through Compost Container

Three separate, aerated compartments enable children to view the entire decomposition process clearly and make side-by-side comparisons between different materials. Included thermometers demonstrate the temperature changes during the decomposition process. Size: 33(L) x 13.3(W) x 20.3cm(H). Ages 5+ years

EN5095

\$69.95

Hydroponics Lab

This set of three growing tubes is a mess-free way to explore hydroponics with water or any media. The transparent seed basket shows how the plant grows and you'll see: no soil required! Includes: 3 plastic test-tubes (4.5cm in diameter x 18cm high), 3 support rod tops and bottoms, 3 seed baskets and an activity guide.

EN5099

Set of 3 \$44.95

Vegetable Root Viewer with Seeds

Observe vegetables growing below the soil! Perfect for simple root vegetables like carrots. The acrylic window is on an angle, which lets the roots grow against the window for a perfect view! Available in root viewer only (RGP134) or as a kit, with seeds included (carrot and beetroot). Soil not included. It measures 40(L) x 15(W) x 24(H)cm.

Worm Farm Our Wiggly Worm Farm Bin & Big Book Set

Worm farms are a clever way to convert waste into a fertile compost. The farm has 3 crates and a base crate with a tap to enable the fertile liquid to be drained as required. As children use the farm they learn about converting plant waste into compost. 'Our Wiggly Worm Farm' big book provides an educational and fun way to learn about worm farms and how they can reduce world pollution.

Aquaponics Flower Tower

The Aquaponics flower tower is perfect for growing herbs, vegetables and flowers inside or out. Just add fish and seeds! The flower tower comes with 16 convenient planter locations. The water flow regulator ensures an even flow of water. The plants will filter the water for the fish, while the fish fertilise the water for the plants. A perfect ecosystem!

RGP0020

\$299.95

EXCLUSIVE

Recycling Stations

Always wondered if the waste recycling has been done correctly and which type of waste should go in which bin? Introducing transparent recycling bins that allow you to see what's inside the bin, promoting the correct recycling of waste. The black bins are also still available, and the lids are compatible with both the transparent and black base. The transparent bins are available in 30L bins. The 30L bins measure 57.5(H) x 41(W) x 30(L)cm. The bins come with a swing lid. The black bins are available in 30L and 60L. The 60L bins measure 69(H) x 43(W) x 50(L)cm and come with a foot pedal. Each set comes in 4 colours – blue, green, yellow and red. They are also available individually.

Social & Emotional Learning & Literacy

Peekapak is a unique Social and Emotional Learning program integrated through a literacy teaching approach. Developed by education experts, Peekapak's innovative curriculum combines teaching skills like gratitude, empathy and self-regulation with English Curriculum outcomes.

30 Day
Free Trial

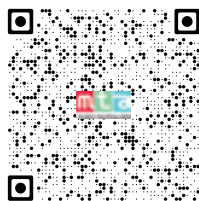

Print and Digital Programs

- Embedded teacher professional development on each Social and Emotional Learning topic
- 80 classroom lesson plans with step by step guides and digital templates
- 10 illustrated printable posters on each SEL topic
- Interactive levelled storybooks with audio and myPeekaville, Peekapak's interactive, digital learning activities
- 'Feelings check-in' tool to practice self-awareness
- 80 home updates and activities for students to do at home with their family
- Back to School Series: Features a new story about a return to school after the "Peekafu" lockdown. Includes lessons covering topics such as dealing with the anxiety of the new rules and helping make sense of this new 'normal'.

Student, Teacher and Parent Analytics:

- Track student-specific engagement (i.e. number of logins duration in storybooks, games played)
- Track Literacy Standards practised from each classroom lesson
- Track the number of units and at-home activities completed
- Parent data (i.e email opens, clicks on books)
- Data security and student privacy safeguards
- School-wide analytics
